Dear Ms. Kollar,

I am reaching out to express our gratitude for the service you provided when Uniondale Union Free School District faced our Lead Water crisis in the Fall of 2017. Two years later and we're still protecting our students, teachers and staff with the Multipure filtration systems we purchased from you.

Since then, much news has surfaced on the many other toxins in Long Island's water system. We feel great knowing that the systems you provided also protect us from these health threats. Knowing you're an MWBE certified firm also helped us reach our goals.

Overall, you provided a great value to us and we're thankful for your willingness to also educate us on water.

Sincerely,

John LaBare, CDF
